Dear Gino

**CIT Murdoch Stage 4 Development – Fibre Reinforced Concrete Screen**

I am writing to express my gratitude for the work that Delta has completed on the fabrication and installation of the FRC screen at the new building at Challenger Institute of Technology TAFE, Murdoch. I think the quality of your work is outstanding.

I have been particularly impressed in the way that Delta has worked with Armstrong Parkin Architects and Airey Taylor Consulting to achieve what is in my view an exceptional outcome. The process has been made easier with your great team of project managers, supervisors and tradesmen who I have had the pleasure to work with. They are very knowledgeable and have demonstrated high levels of cooperation to resolve the inevitable problems that arise along the way.

It is very clear to me that Delta take great pride in your work and service and that you strive for the quality that we look for. I do hope that we can work together on projects in the future.

Yours sincerely

Stephen Parkin  
Armstrong Parkin Architects

Director
